The Internal Revenue Service has agreements with state tax agencies under which information about federal tax, including increases or decreases, is exchanged with the states. If this change affects the amount of your state income tax, you should amend your state return by filing the necessary forms.

You may be subject to backup withholding if you underreport your interest, dividend, or patronage dividend income you earned and do not pay the required tax. The IRS may order backup withholding (withholding of a percentage of your dividend and/or interest payments) if the tax remains unpaid after it has been assessed and four notices have been issued to you over a 120-day period.
